

# DÜNGEMITTEL DIENSTLEISTUNG ROSTOCK GmbH

## FERTILIZER

This subsidiary handles the export of fertilizers. The fertilizer quay is equipped with a ship loader, a wagon loading station, a conveyor belt system and two special halls for fertilizer with a storing capacity of 60,000 tons. The ship loader has a capacity of 800 tons per hour.

Cargoes can reach this terminal by rail or lorry. The products which are handled at this quay are potash, SSA, KAS, sulfan, AXAN and urea. 500,000 tons are handled per year.

The facility also serves as a location for distribution which can provide for both the overseas export of fertilizers and the German market.
