THE COMPANY

During the last years the [Port of Rostock](#) has become one of the most important trade sites in the Baltic area. That can be put down to its ideal infrastructure with direct rail and road connections as well as to its efficient cargo handling facilities and modern technology.

The [Gesamthafenbetriebsgesellschaft Rostock mbH \(GHBG\)](#) was founded on 1. May 1992. Since then we -the team of the GHBG- have taken up every new challenge and developed to a modern and qualified service provider for labour leasing.

Why not using this know-how?

Based on the German Law on Labour Leasing we are able to support you with a large supply of temporary workers. They are well experienced in the handling of loading and unloading of all sorts of goods.
